

The COBA logo is displayed in a bold, yellow, sans-serif font. It is contained within a purple rectangular box that has a slight 3D effect with a darker purple shadow on its right side. The background of the entire page is a dark, industrial scene showing a person's legs in black work pants and black safety boots standing on a grey, textured anti-slip mat. The mat is surrounded by debris, including metal shavings and a broken bolt. Bright orange sparks are flying from the left side of the frame, suggesting a welding or grinding activity. In the top right corner, there is a white diamond-shaped icon containing a checkmark, followed by the text 'Right Mat, First Time'. At the bottom, the text 'Full-line Catalogue' is written in yellow, flanked by two yellow diagonal lines that form a partial frame. In the bottom left corner, the code 'CELCAT25SA01' is printed in a small, white, sans-serif font.

 Right Mat,  
First Time

CELCAT25SA01

## WELCOME TO COBA

Welcome to our latest full-line catalogue, in which we're excited to unveil our newly refreshed branding! Moving forward, we'll be known simply as COBA. A change that comes following the demerger from COBA Plastics Group and is aimed to support continued growth for our clients and stakeholders. Rest assured, whilst our name may have evolved, our commitment to providing high-end products and unparalleled support remains.

Ever since pioneering safety matting in the UK in 1979, COBA has led the industry with innovative products and unmatched expertise. The inception of COBAmat® offered a ground-breaking alternative to wooden duck-boarding at the time, and many more innovations have occurred since, including the introduction of Orthomat® in 1993, and Social Distancing Mats in 2020 – all with the aim of improving safety and comfort for those that stand at work.

The remarkable growth of our business has demanded expansion, and we now operate from five permanent facilities spanning the UK, Germany, Slovakia and South Africa, with sales representatives in South Africa as well. With a combined storage space of 4088 square metres, we are poised to best serve our customers, and continue our legacy of excellence in workplace safety.

And speaking of customers, COBA continues to lead the way in providing extensive backing through product training and marketing support. Our dedicated team of experts conduct joint site visits, offering specialised knowledge to the unique requirements of each end user. Also, our PIM system launched in 2021, makes accessing product information a breeze.

**Right Mat, First Time** is our motto, and reflects our enthusiasm for effective product selection, driving customer satisfaction and reducing wastage. From our years of experience, it pays to get this stage right, especially with so many unique products to choose from. Right Mat, First Time is also our commitment to offer the most suitable product for your workplace, not the most expensive.

All those years of experience have also been incorporated into **MatBrain™**, it helps you choose the correct matting solution by simplifying the decision-making process. By answering a few simple questions, we can narrow down the options to the extent that a choice can be made.

Our vision is to enhance the experience of everyone who traverses our exceptional products. Aiming for new and novel manufactured solutions with a better and more sustainable future in mind. The environmental issues we face in this world are concerning, which is why we regularly reassess our products and processes. So far this includes offsetting carbon emissions, adopting recyclable packaging, and partnering with Sedex for ethical sourcing (in the UK) to name just a few. In fact, one of our most recent additions is the ReGen range of mats made from 100% regenerated material.

Keep reading to discover more about these and other new and exciting products in this edition.

## GLOBAL REACH, LOCAL SERVICE

### LOCALISED SUPPLY & SUPPORT

Through our local offices we support a vast network of trusted distributors putting COBA products to work across the globe.

## WHAT WE DO DIFFERENTLY

## CONTENTS

### WORKPLACE SAFETY MATTING

### NEW PRODUCTS

Our comprehensive range of safety matting. Includes specialist anti-fatigue mats like Orthomat®, designed to reduce discomfort, and our slip-resistant products that lower the risks presented by water, oil, or swarf. **7-21**

### ELECTRICAL SAFETY MATTING

Matting designed to prevent electric shock in front of switchboards and other high voltage equipment. **22-24**

### ESD MATS & ACCESSORIES

A range of electrostatic dissipative floor mats and bench mats, as well as suitable accessories for operatives. **25-30**

### FLOOR LEVEL SAFETY ACCESSORIES

### NEW PRODUCTS

Slips and trips are the largest cause of workplace injury. Reduce the risk at floor level using this range of non-slip surfaces, physical barriers, and visual aids. **31-37**

### FLOOR COVERINGS

Floor covering tiles in rubber and vinyl with both interlocking and non-interlocking options, plus flooring adhesive and knee protection. **38-41**

### STANDING DESK MATS

The perfect accessory for standing desks in any modern office. Reduce fatigue when standing for extended periods at work. **42-44**

### ENTRANCE MATTING SYSTEMS

A range of effective matting systems for busy entrance areas, such as in retail, schools, hospitals, and transport terminals. **45-57**

### ENTRANCE MATS

### NEW PRODUCTS

Reduce walked-in dirt and moisture with this range of 'loose lay' internal and external entrance doormats for commercial use. **58-71**

### MATS FOR LEISURE

Anti-slip and noise reduction mats for the leisure industry. Ideal for leisure centres, gyms, outdoor play areas, and more. **72-75**

### RUBBER SHEETING

A comprehensive range of multi-purpose rubber sheet materials in various thicknesses and specifications. **76-77**

### INDEX

**78**

**MatBrain™**

**MatBrain™ has been created to help you quickly search through more than 100 matting solutions based on the specific requirements of yours, or your customer's workplace**

**[www.coba.com/za/matbrain](http://www.coba.com/za/matbrain)**

# PRODUCT TESTS & STANDARDS EXPLAINED

In partnership with the internationally recognised SATRA, we test our products to the latest standards in slip and fire safety, and ESD ratings.

## FIRE RESISTANCE

### BS EN 13501-1

Reaction to fire classification.

The classification is split into three parts:

The main part of the classification is its letter – A1, A2, B, C, D, E and F. A1 (Non-combustible) is the highest level of performance.

There is a smoke classification of s1, s2 or s3.  
s1 is the highest level of performance.

There is a classification of flaming droplets of d0, d1 or d2.  
d0 is the highest level of performance.

## FLOOR COVERINGS

### BS EN 14041

This standard relates to internal floor coverings that meet certain fire, slip-resistance, or electrical behaviour.

## ELECTRICAL SAFETY MATTING

### BS EN 61111

Electrical safe matting that conforms to this standard is available in different classes (0-4) and consists of a fine, fluted pattern on one side and a cloth impression on the reverse.

### BS 921

This standard was made obsolete in 2013 and is superseded by BS EN 61111.

### DIN EN 6134

This standard sets out how electrical installations should be tested initially and at intervals and includes the requirement to check the resistance of the flooring system. The standard describes the test method for flooring which is performed using a tripod electrode according to EN 1081.

## SLIP RESISTANCE

### PENDULUM SLIP TEST: BS 7976-2:2002+A1:2013

Internationally recognised British standard that uses a pendulum device to measure a surface material's slip potential.

Slip Potential	PTV
High slip potential	0 – 24
Moderate slip potential	25 – 35
Low slip potential	36+

### RAMP SLIP TEST: DIN 51130:2014

Internationally recognised German standard that measures slip potential by the angle at which the surface material loses friction.

R Value	Category Static Friction is	Angle of Inclination
R9	Low	6° to 10°
R10	Normal	>10° to 19°
R11	Above Average	>19° to 27°
R12	High	>27° to 35°
R13	Very High	>35°

### RAMP SLIP TEST: DIN 51097

Internationally recognised German standard that for testing surface materials in wet, soapy conditions such as those found in leisure industry

Classification	A	B	C
Slip Angle	12°–17°	18°–23°	>24°
CoF	0.21-0.31	0.32-0.42	>0.45

## ESD

### IEC 61340-5-1

Protection of electronic devices from electrostatic phenomena - General requirements

# GLOSSARY OF TERMS

**Anti-Fatigue** – Provides comfort and relief from standing

**Slip-Resistant** – Has a surface that resists slipping and has been tested to industry standards

**GRP** – Glass reinforced plastic

**ESD** – Electrostatic discharge

**Anti-Static** – The dampening or inhibition of static electricity to prevent build-up

**MSD** – Musculoskeletal disorder

**Loose lay** – Mats that are not fixed to the floor

**Matwell** – A recessed well area into which entrance matting is laid

**Open or Solid Surface Construction** – Whether or not the mat surface is designed to let dirt pass through

**REACH** – Registration, Evaluation, Authorisation and Restriction of Chemicals

# MATERIAL GUIDE

CR	EPDM	GRP	LDPE	NATURAL RUBBER
Chloroprene Rubber	Ethylene propylene diene monomer rubber	Glass reinforced plastic	Low-density polyethylene	Sourced from the latex of the rubber tree
NBR	PA	PC	PE	PET
Nitrile butadiene rubber	Polyamide	Polycarbonate	Polyethylene	Polyethylene terephthalate
PP	PU	PVC	SBR	VINYL
Polypropylene	Polyurethane	Polyvinyl chloride	Styrene butadiene rubber	Generic term for vinyl polymers

## ICON KEY

COMFORT FACTOR	SLIP RATING	WEAR RATING	SUITABLE FOR WET ENVIRONMENTS	SUITABLE FOR OILY ENVIRONMENTS
We grade the comfort level of our workplace mats from 1-5. A higher score represents better levels of comfort when standing for extended periods.	We grade the slip rating of our workplace mats from 1-5 based primarily on the results of slip testing. A higher score represents better slip resistance.	We grade the durability of our workplace mats from 1-5 based on several factors from material to thickness. A higher score represents a more hard-wearing product.	This product is suitable for use in areas regularly exposed to water.	This product has a level of oil resistance that make it more suitable for engineering workshops or catering locations.
FIRE TESTED	SUITABLE FOR HIGH VOLTAGE ENVIRONMENTS	STATIC DISSIPATIVE OR ANTISTATIC	MADE FROM RECYCLEABLE MATERIALS	EasyInstall™
This product has been tested to BS EN 13501-1. Please ask for a copy of the certificate if required.	This product has been tested to insulate the user from electrical shock.	This product has been tested to conform to an electrostatic resistance between $10^4$ and $10^{10} \Omega$ .	This product is partly or wholly made from recyclable materials.	This product is part of our EasyInstall™ range and is quicker to lay than some other types of matting.
PEDESTRIAN TRAFFIC RATING	WHEELED TRAFFIC RATING	ZONES	CONTAMINANTS	WARRANTY
We grade our entrance matting systems from 1-4 depending on the level of traffic they are suitable for.	We grade our entrance matting systems from 1-4 depending on the type of wheeled traffic they can accept without failing.	Denotes whether the matting is suitable for External, Intermediate or Internal.	Denotes whether the matting can combat dirt, water or both.	The number shown represents the standard warranty against material and workmanship under normal use.

# THE RISKS OF PROLONGED STANDING

Prolonged standing can lead to fatigue, pain and serious health issues, such as MSDs.

## WHAT ARE MSDs?

**Musculoskeletal Disorders** are injuries or conditions affecting the movement of the human body.

They are problems that affect the **muscles, tendons, ligaments, vascular system, nerves, soft tissues, bones and joints.**

**MSDs are currently the most common work-related condition in the EU.**

They are expected to affect some

**50%** **2030\***  
of the population by

**15.2** days

average time lost due to each MSD case.\*

**7.3** million

working days lost due to MSD.\*\*

Over **45%**

of European workers complain of standing in tiring positions at work.\*

**86%**

found anti-fatigue matting had helped to reduce pain or serious health complaints of staff.\*\*\*

**82%**

Considered anti-fatigue matting to have a positive effect on increasing productivity in their company.\*\*\*

**Anti-Fatigue Matting.**  
Scientifically proven to reduce discomfort and fatigue

## Workplace Safety Matting

Improving comfort and safety,  
reducing the risk of accident and injury

For decades, COBA has been a market leader in workplace safety matting, and today we offer one of the most comprehensive ranges for any working environment, whether that's industrial, catering or retail. Whether the main objective is to reduce the risk of slips or to provide fatigue relief from standing, we have a solution to suit a wide variety of budgets and environments.

## STUDIOLOK

Interlocking tiles for leisure centres

- ➔ Easily Installation these interlocking tiles.
- ➔ Popular low-cost flooring for inside the house or office, playrooms, and garages.
- ➔ Made from recycleable PVC – nonconductive and fire-resistant
- ➔ Do not expose to direct sunlight or extreme temperatures
- ➔ The edging is manufactured to 45-degree corners on both sides.
- ➔ Interlocking Tile colour may vary from tile to tile
- ➔ Product may have colour/appearance imperfections
- ➔ The edge strip still provides a ramp for trolleys and the tile, preventing wheels or shoes from getting stuck / tripping over the open edges.
- ➔ Lead times are 15 working days for orders not in stock of black tiles
- ➔ Lead times are 6-7 weeks from the date of order received on coloured tiles

Size	Description	SKU
465mm X 465mm X 6mm ( Single Tile)	StudioLok PVC Tile	RUBSL6

**Typical Applications**  
Gyms and Leisure Centres

### Material

Rubber mix, including >50% recycleable material

### Resistance to Environment

Suitable for all indoor environments

## ORTHOMAT® STANDARD

Quickly tackle standing fatigue in dry workplaces

- Versatile single layer foam anti-fatigue mat.
- Insulates standing workers against the effects of cold concrete floors
- Lightweight, so easy to transport and reposition.
- Best suited to dry environments.
- High visibility version available with bright yellow borders.
- Ideal for lighter industrial use.
- Textured surface provides attractive appearance.
- Available in mats and rolls.
- Fire tested to BS EN 13501-1.
- Product height: 9.5 mm.

Size	Black/Yellow
0.6 m x 0.9 m	AF010701
0.9 m x 1.5 m	AF010702
0.9 m x 18.3 m	AF010703
0.9 m x per linear metre	AF010703C

### Typical Applications

Production lines, Assembly areas,  
Packing stations, Workbenches

### Environmental Resistance

Suitable for dry indoor  
environments

### Material

Open Cell PVC (Foam)

## ORTHOMAT® PREMIUM

Reduces standing fatigue for those that move at work

- Exceptional fatigue-relief properties – a real investment for the workplace
- Dual layer construction for superior comfort and durability.
- Tough textured top surface for excellent resilience against wear and tear.
- Insulates against the effects of cold concrete floors.
- Low density underlayer provides extremely effective underfoot cushioning.
- Ideal for demanding locations, especially where regular turning is involved.
- Tapered edges to reduce trip hazards.
- Range of colours available.
- Fire tested to BS EN 13501-1.
- Product height: 12.5 mm.

Size	Black
0.6 m x 0.9 m	FF010001
0.9 m x 1.5 m	FF010002
0.9 m x 18.3 m	FF010003
0.9 m x per linear metre	FF010003C

### Typical Applications

Production lines, Assembly  
areas, Packing stations,  
Workbenches, Retail counters

### Material

Open Cell PVC (Foam)

## ORTHOMAT® REGEN 100

The classic ergonomic workstation mat - now made of 100% ReGen material

- Versatile single layer foam anti-fatigue mat made with 100% regenerated material.
- Shares the same great product qualities and performance as our standard Orthomat® products.
- Insulates standing workers against the effects of cold concrete floors.
- Lightweight, so easy to transport and reposition.
- Best suited to dry environments.
- Ideal for lighter industrial use.
- Textured surface provides attractive anti-slip appearance.
- Available in mats and rolls.
- Product height: 8mm.

Size	Charcoal
0.6 m x 0.9 m	OR010001
0.9 m x 1.5 m	OR010002
0.9 m x 18.3 m	OR010003
0.9 m x per linear metre	OR010003C

### Typical Applications

Production lines, Assembly areas,  
Packing stations, Workbenches

### Environmental Resistance

Suitable for dry environments

### Material

Open Cell PVC foam  
100% Regenerated Material

## SENSO DIAL

An anti-fatigue mat for increased comfort in the workplace

- Anti-fatigue mat with excellent all-round safety features.
- Foam backing provides fatigue-relief.
- Rubber top surface is effective in reducing slip risk.
- Hardwearing and resistant to oil spillage.
- Ramped edges.
- Product height: 10 mm

Size	Black
0.6 m x 1 m	SN010004
1 m x 1.5 m	SN010005
1 m x 10 m	SN010002
1 m x per linear metre	SN010002C
1.2 m x 10 m	SN010003
1.2 m x per linear metre	SN010003C
Special sizes available on request	SN010010

### Typical Applications

General industrial

### Chemical Resistance

Good benzene resistance (also suitable for  
unleaded fuel): 70 h, 23°C, Fuel B (ISO 1817),  
20% volume swell for minor mechanical demands

### Material

SBR/NBR top surface,  
EPDM foam base

## COBAELITE® BUBBLE

Excellent fatigue relief with superior resilience

- Improve comfort when standing in the workplace.
- Raised surface stimulates blood circulation and foot movement.
- Superior material ensures durability.
- Ramped edges help avoid creating a trip risk.
- Loose lay – can easily be installed in a wide array of workplaces.
- Fire tested to BS EN 13501-1.
- Product height: 15 mm

### Size

0.6 m x 0.9 m  
0.9 m x 1.2 m

### Black

SE010001  
SE010003

### Typical Applications

General industrial,  
Retail

### Chemical Resistance

PU offers limited resistance  
to chemicals and oils

### Material

PU

## COBAELITE® DIAMOND

Durable anti-fatigue mat with diamond pattern

- Improve comfort when standing in the workplace.
- Premium quality 'diamond' surface anti-fatigue mat.
- Superior material ensures durability.
- Ramped edges help avoid creating a trip risk.
- Supplied with high visibility yellow borders as standard.
- Loose lay – can easily be installed in a wide array of workplaces.
- Supplied as individual workstation mats.
- Fire tested to BS EN 13501-1.
- Product height: 18 mm

### Size

0.6 m x 0.9 m  
0.9 m x 1.2 m

### Black/Yellow

SED010701  
SED010702

### Typical Applications

General industrial,  
Retail

### Environmental Resistance

Suitable for dry indoor  
environments

### Material

PU

## RAMPMAT

Banish cold hard concrete floors with our entry level rubber anti-fatigue mat

- Provide standing relief to all workers with this economical anti-fatigue mat.
- Raised circular surface provides effective slip resistance.
- Open drainage holes capture spilt liquids, swarf or other debris to help prevent slips.
- Moulded ramped edges to reduce the risk of trips and allow wheeled access.
- Made from hardwearing rubber for durability.
- Slip tested to DIN 51130.
- Product height: 12 mm.

Size	Black
0.9 m x 1.5 m	RP010001
0.8 m x 1.2 m	RP010002

### Typical Applications

General industrial, Areas where swarf is prevalent. Entrance areas.

### Environmental Resistance

Suitable for wet and dry environments, indoors or outdoors

### Material

Rubber mix, including >50% recyclable material

## K-MAT

Reduce fatigue and slips in oil prone areas

- A nitrile rubber mat for swarf prone areas.
- Contains nitrile to offer the best resistance to oils and chemicals.
- Ideal for food processing and manufacturing locations due to its excellent resistance to grease, fats and detergents.
- Easily cleaned in a commercial washing machine.
- Raised pattern surface for exceptional slip-resistance (tested to DIN 51130).
- Open holes efficiently drain liquids and capture debris.
- Hygienic anti-microbial properties make it suitable for food processing locations.
- Product height: 9 mm.

Size	Black
0.92 m x 1.53 m	KM010001
0.92 m x 2.9 m	KM010002

<b>Typical Applications</b> Food manufacturing, Kitchens, General industrial, Machine tool areas where swarf is prevalent		<b>Resistance to Chemicals</b> Resistant to oil		<b>Material</b> NBR	

## FATIGUE-STEP

Fatigue relief for large shop floor areas.

- Tiles link together to provide an anti-fatigue surface for particularly wet areas.
- Soft, yet resilient rubber floor tiles.
- Open holes allow efficient drainage of spilt liquids.
- Effective anti-fatigue properties for prolonged standing.
- Slip tested to DIN 51130.
- Optional ramped edging in yellow or black.
- Product height: 14 mm and 18 mm.

Size	Black - 18mm	Black - 14mm
0.9 m x 0.9 m	SS010001	SS010006

### Aluminium Edging available

Edging	Part Descriptions	Black - 18mm	Yellow - 18mm
Fatigue-Step Edges	Female Edge/Corner Edge	SS010002F	SS070002F
Fatigue-Step Edges	Male Edge/Corner Edge	SS010002M	SS070002M

#### Typical Applications

All industrial environments, Bars, Catering environments, Areas where swarf is prevalent.

#### Environmental Resistance

Suitable for wet and dry environments. Will withstand welding splatter and spillages of other hot materials.

#### Material

Rubber mix, including >50% recycleable material

## FATIGUE LOCK

Premium mid-size interlocking anti-fatigue tile

- This extra thick tile provides comfort and fatigue relief for standing workers.
- Precision designed tiles seamlessly clip together for smooth raised floor surface.
- Convenient tile size allows for easy planning.
- Can be used to cover large or unusually shaped workstations.
- Made from rubber for durability, slip, and impact resistance.
- Tile option with holes is ideal for wet workplaces in need of drainage.
- Solid and holed version can be used together in one installation.
- Ramped edges prevent trips and are available in black or yellow.
- Easily cleaned with a jet washer or hose.
- Slip tested to DIN 51130.
- Product height: 24 mm.

Size	Part Descriptions	Black	Yellow
0.5 m x 0.5 m	With holes	FL010001	-
0.5 m x 0.5 m	Solid surface	FLS010001	-
0.5 m x 150 mm	Female Edge	FLE010002F	FLE070002F
0.5 m x 150 mm	Male Edge	FLE010002M	FLE070002M
	Corner Edge	FLC010003	FLC070003

#### Material

Rubber, including 25% NBR  
50% recycleable content

## WORKSAFE

If greasy floors are a problem, this is your ideal anti-slip mat!

- Improves comfort during prolonged standing.
- Hardwearing making it suitable for many industrial environments – a choice of two materials.
- Blue oil-resistant option is ideal for greasy, oily workstations where slips pose a threat.
- Open holes capture spilt liquids and swarf.
- Effectively reduces slip hazards where spillage is prevalent.
- A complete mat that can be used as immediate safety solution.
- Bevelled edges reduces the risk of tripping.
- Slip tested to DIN 51130.
- Product height: 16 mm.

Size	Black	Blue
0.9 m x 1.5 m	SW010001	SW020001

### Typical Applications

Welding bays, Machine tool areas where swarf is prevalent

### Chemical Resistance

Natural rubber is resistant to water and most mild acids

### Material

Black version 70% recyclable content Blue version 40% recyclable content.

## HYGIMAT

A revolutionary hygienic anti-fatigue mat

- Improve feeling of comfort and energy whilst standing at work.
- Ideal for any workplace where hygiene is important e.g. healthcare, food manufacturing, catering, hospitality, clean rooms or food retail.
- Made from a revolutionary 'gel foam' material that combines the best in durability and comfort.
- Material also has anti-microbial properties
- Closed cell construction means that no liquids can penetrate the mat and reduce performance.
- Version with holes is ideal for wet workplaces in need of drainage.
- Oil resistant.
- Easily cleaned – can be cleaned with detergent or can be steam sterilised.
- Fire tested to BS EN 13501-1 and slip tested to DIN 51130.
- Product height: 17 mm ±1 mm.

Size	Solid surface	With holes
0.6 m x 0.9 m	HYS010001	HYG010001
0.9 m x 1.5 m	HYS010002	HYG010002
0.9 m x 1.8 m	HYS010003	HYG010003

### Typical Applications

Hospitals, Clean rooms, Offices, Catering environments

### Resistance to Chemicals

Generally resistant to chemicals.

### Material

Rubberised Gel Foam

## BUBBLEMAT

Smart anti-fatigue mat with a distinctive bubbled surface

- Raised bubble patterned surface stimulates feet and legs to aid circulation.
- Underfoot cushioning also makes prolonged occupational standing more comfortable.
- Complete mats suitable for workstations and interlocking sections available for longer production lines.
- Product height: 14 mm.

Size	Part Description	Black
0.6 m x 0.9 m	Edged all round	BF010001
0.9 m x 1.2 m	Edged all round	BF010002

### Typical Applications

General industrial

### Environmental Resistance

Suitable for predominantly dry environments

### Material

Natural rubber  
43% recyclable content

## BUBBLEMAT SAFETY

Smart anti-fatigue mat with a distinctive bubbled surface

- Highly effective anti-fatigue mat.
- Edges in yellow signal colour for increased work safety.
- The bubbles of this workplace mat encourage more movement and stimulate the circulation, reliably preventing signs of fatigue.
- Increases safety at the workplace as an anti-slip mat.
- Ideal for standing workplaces in industry and manufacturing.
- Available as individual mats or interlocking modules.
- Product height: 14 mm.

Size	Part Description	Black/Yellow
0.6 m x 0.9 m	Edged all round	BF010701
0.9 m x 1.2 m	Edged all round	BF010702

### Typical Applications

General industrial

### Environmental Resistance

Suitable for predominantly dry environments

### Material

Natural rubber  
30% recyclable content

## COBASCRAP

A durable anti-slip mat ideal for areas prone to oil or chemical spillage

- A solid surface mat designed to reduce slips in oily or greasy conditions.
- Raised surface pattern provides extra underfoot grip.
- Recessed pattern creates drainage channels to capture liquids.
- Makes standing more comfortable in a wide range of workplace environments.
- Resilient to degradation in oily, greasy and chemical prone areas for a longer lifespan.
- Single mat design makes it a quick and simple solution to reduce slip accidents.
- Bevelled edges as standard to reduce trip hazards.
- Slip tested to DIN 51130.
- Product height: 6 mm.

Size	Black
0.85 m x 1.5 m	CS010002
0.85 m x 3 m	CS010003
1.15 m x 1.75 m	CS010004

### Typical Applications

Food manufacturing, Kitchens,  
General industrial. Entrance areas.

### Chemical Resistance

Resistant to many chemicals, alkalis,  
detergents, oils, machine coolants  
and general industrial coolants.  
Rubber may swell in polar solvents.

### Material

NBR  
20% recyclable content

## DECKSTEP

Multi-purpose ribbed vinyl matting for industry

- Raise workers off the ground like traditional duckboard.
- Reduces the risk of slips by removing feet from direct contact with spilt liquids.
- Provides a much more comfortable standing surface than concrete.
- Textured surface provides slip resistance.
- Flexible and lightweight – easy to move and clean.
- Strips are welded together for strength.
- Slip tested to DIN 51130.
- Product height: 11.5 mm ±0.5 mm.

### Typical Applications

General industrial, Production lines, Assembly  
areas, Packing stations, Workbenches.

### Chemical Resistance

Resistant to acid and alkali

### Material

PVC

Size	Black	Blue	Grey	Red

1.2 m x 10 m	DS011210	DS021210	DS061210	DS031210
1.2 m x per linear metre	DS011210C	DS021210C	DS061210C	DS031210C

## MK3 TOUGH DECK

### Recycleable drainable workplace tiles

- ➔ Non-slip interlocking decking for wet areas.
- ➔ Combination of substantial product height and large holes offers excellent drainage.
- ➔ An economical yet heavy-duty matting solution.
- ➔ Easy DIY installation with connectors that conceal joins.
- ➔ Ideal for industrial use, especially in areas prone to liquid spillage.
- ➔ Ramped edges to prevent trips are available in black or yellow.
- ➔ Provides entry level anti-fatigue properties.
- ➔ Slip tested to DIN 51130.
- ➔ Product height: 20 mm.

Size	Part	Black	Yellow
480mm x 480mm	Tough Deck Tile	RUBMK3	-
480mm x 480mm	Pack of 2	RUBMK32	-
480mm x 180mm	Female Ramped Edge	RUBMK3RF	RUBMK3FY
480mm x 180mm	Male Ramped Edge	RUBMK3R	RUBMK3RY
0.18 m x 0.18 m	Corner Edge (Pack of 4)	TDC070001C	TDC010001

#### Material

100% recycleable rubber & plastic with exception of the yellow edges

## COBAMAT® STANDARD

### Standing the test of time, our original safety matting

- ➔ The original premium multi-purpose safety mat widely used across the industry today.
- ➔ An ideal choice for longer production lines, or for covering mezzanine floors.
- ➔ Available in four vibrant colours and four weave (hole) sizes to suit the application.
- ➔ Vinyl strips are interwoven, rather than welded, for better flexibility and lower risk of breaking.
- ➔ Cross-ribbed grip to reduce slipping.
- ➔ Fully reversible for added longevity.
- ➔ Suitable for use in wet and dry environments, or where swarf and debris cause problems.
- ➔ COBAMat Standard is available with a hole size of 22 mm x 22 mm to ensure effective drainage
- ➔ Fire tested to BS EN 13501-1 and slip tested to DIN 51130.
- ➔ Product height: 12 mm.

Size	Black	Blue
0.6 m x 10 m	CS010610	CS020610
0.9 m x 10 m	CS010910	CS020910

#### Typical Applications

General industrial, Engineering, Machine tool areas where swarf prevalent

#### Chemical Resistance

PVC is resistant to many different chemicals, alkalis and general industrial chemicals. PVC resists alcohols, aliphatic hydrocarbons, oils, weak acids, strong mineral acids and alkalis. PVC resists oil and grease if properly cleaned. PVC does not resist organic solvents, ketones, esters and aromatic hydrocarbons.

#### Material

PVC

## UNIMAT

Heavy-duty anti-fatigue matting for wet areas

- Versatile rubber runner.
- Open holes provide excellent drainage.
- A real asset in helping to prevent slipping in wet areas.
- Easy to roll up and move to new locations or for cleaning.
- Slip tested to DIN 51130.
- Product height: 10 mm

Size	Black
1 m x 5 m	UM010001
1 m x 10 m	UM010002
1 m x per linear metre	UM010002C

### Typical Applications

General industrial, Bars, Catering environments

### Environmental Resistance

Resistant to water and most mild acids

### Material

Rubber mix, including >75% recyclable material.

## COBARIB

Best-selling ribbed runner for floors and workbenches

- Widely used for many different industrial applications, as floor matting or workbench/tool protection.
- Ribbed rubber surface provides additional grip reducing the risk of slipping for operatives.
- Provides a protective covering for workbenches, cushioning the impact of tools and apparatus.
- Also useful for protecting stock at packing stations, and components in assembly areas.
- Can help support noise insulation.
- Product height: 2.5 mm, 3 mm, 6 mm.

Size	2.5mm (Fine Rib)	3mm	6mm
0.9 m x 3 m	RR010010W	-	-
0.9 m x 10 m	-	RR010010	RR010030
0.9 m x per linear metre	-	RR010010C	RR010030C
1.2 m x 10 m	RR010023	RR010020	RR010040
1.2 m x 20 m	RR010021	-	-
1.2 m x per linear metre	RR010021C	RR010020C	RR010040C
1.5 m x 10 m	RR010024	-	-

### Typical Applications

Workbenches, Workstations, Walkways

### Resistance to Chemicals

Resistant to water and most mild acids

### Material

Natural rubber

## COBADOT NITRILE

An easy to install rubber runner

- Versatile rubber floor covering.
- Studded surface looks smart, while being a practical choice for both industrial and commercial buildings.
- Nitrile option recommended for oily, greasy or chemical-prone locations based on its resilient properties.
- Provides enhanced underfoot grip to reduce the risk of slipping.
- Ease of installation minimises any down time – can be bonded or laid loose to the floor.
- This product is designed as a runner only as the dots may not match up when lengths are placed together.
- Product height: 3 mm, 4.5 mm.

Size	Black Nitrile	Grey Nitrile
1.2 m x 10 m x 3 mm	CDN010001	CDN060001
1.2 m x per linear metre x 3 mm	CDN010001C	CDN060001C

### Typical Applications

Walkways

### Chemical Resistance

Resistant to mild acids and alkalis

### Material

.Nitrile - Natural/NBR rubber.

## GRIPGUARD

Grit surface matting with outstanding anti-slip properties

- Mineral coated matting creates an abrasive 'super-grip' standing surface that sits flush to the floor.
- Effectively reduces the risk of slipping in wet or oily conditions, where fluid spillage is prevalent.
- Durable and oil-resilient, ideal for internal industrial use, as well as other workplace environments.
- Easy installation making this the ideal product for those needing a rapid solution to floor safety.
- Low profile negates creating a trip potential.
- Product height: 2.25 ± 0.2 mm.

Size	Black
0.9 m x 6 m	GG010003

### Typical Applications

Walkways

### Environmental Resistance

Suitable for wet and dry environments, indoors or outdoors

### Material

Mineral (Aluminium Oxide) Coating with vinyl backing

## GRIPSAFE

Protective liner for workbenches and much more!

- Adaptable non-slip liner to protect both tools and shelves or workbenches.
- Keep worktop items in place without the need for stands or clamps.
- Fit inside drawers to reduce tools moving around.
- Use on vehicle dashboards to prevent movement in transit.
- Cuts easily, so you can fit to any space.
- Very light - doesn't add extra weight to benches or toolboxes.
- Wear resistant and machine washable providing a long lifespan.
- Product height: 2 mm.

Size	Black
0.6 m x 1.2 m	GS010002
0.6 m x 10 m	GS010001

### Typical Applications

Workbenches, Bar shelves, Tool drawers

### Material

PVC foam

## SITEPATH

Create high visibility walkways with ease

- A lightweight matting for easy deployment on construction or factory sites.
- Flexible material can be laid onto uneven surfaces.
- Diamond pattern top surface.
- Yellow colour ensures walkways are easily visible.
- Easily cleaned with a jet washer or hose.
- Supplied in long rolls for easy installation.
- Can be laid loose or adhered to the floor.
- Low profile reduces trip potential.
- Branded option available.
- Product height: 2 mm.

Size	Yellow
1 m x 5 m	SP070001C5
1 m x 10 m	SP070001

### Typical Applications

Walkways

### Environmental Resistance

Generally resistant to chemicals.

### Material

PVC

## WATERCOOLER SPLASHMAT

Absorb water splashes by water coolers

- Avoid water splashes at water coolers with this absorbent mat
- Absorb up to 5 l/m<sup>2</sup> of moisture
- Water absorption will avoid slip hazards at the office
- Spilt water from your water cooler, that is stepped-in can cause dirty tracks on internal flooring. Using an absorbent mat can protect internal flooring and keep your office area clean
- Manufacturing time: 3 days
- Product height: 9.2mm

Size	Anthracite	Grey
910 mm x 610 mm	WCS010001	WCS010002

# MatBrain™

**QUICKLY SEARCH THROUGH MORE THAN 100 MATTING SOLUTIONS BASED ON THE SPECIFIC REQUIREMENTS OF YOURS, OR YOUR CUSTOMER'S WORKPLACE.**

**MatBrain™** is our easy-to-use online decision-making tool that helps make anyone a matting expert in seconds.

Selecting a matting solution just on price alone is unlikely to provide a good return on investment. Mats placed into the wrong environment may wear out sooner than intended, or worse, might introduce a hazard that wasn't previously present.

COBA has decades of experience working with people in many industries and understands the various risk factors involved. We empower our people with this knowledge so that they can support our customers in making sound investment in floor matting.

**Search for 'COBA MATBRAIN' to access the interactive tool directly on our website and let it narrow your search in seconds. Alternatively, contact one of our helpful Sales Representatives, who will guide you to finding the right mat, first time.**

## COBA CARE DUO ZONE DISINFECTANT MAT

Sanitise and dry on the go! Ideal to support COVID-19 protection

- Resilient vinyl loops scrape dirt off shoes, while the disinfectant solution cleans and sanitises footwear.
- Loose lay on a level surface, no installation necessary. Light and easy to relocate.
- Fill Zone 1 with COBA Care Disinfectant Solution.
- Improves hygiene and contamination control by cleaning the soles of shoes and boots.
- Perfect for medium traffic, room-to-room contamination control.
- Suitable for schools, home use, or internal office doorways.
- Slip-resistant base, with beveled edges, to help retain position and reduce tripping hazards.
- Material: Made from natural and recycleable rubber, which is biodegradable and recyclable.
- Product Height: 15 mm.
- Suitable for schools, day-care centres, small office blocks or home use.

Size	Dark Grey, Anthracite	Dark Grey, Grey	Brown, Beige
395 mm x 670 mm	CDM007	CDM008	CDM009

### Environmental Resistance

Suitable for indoor environments

### Material

Made from natural and recycleable rubber, which is biodegradable and recyclable.

## COBA CARE TRIO ZONE DISINFECTANT MAT

Prevent the spread of walked in bacteria and infectious viral particles

- Improves hygiene and contamination control by scraping, sanitising and drying the soles of shoes and boots.
- Loose lay on a level surface, no installation necessary.
- Light and easy to relocate.
- Fill Zone 2 with COBA Care Disinfectant Solution.
- Perfect for medium traffic, room-to-room contamination control.
- Slip-resistant base, with beveled edges, to help retain position and reduce tripping hazards.
- Material: Made from natural and recycleable rubber, which is biodegradable and recyclable.
- Mat Size: 395 mm x 995 mm.
- Suitable for schools, daycare centres, small office blocks or home use.
- Product Height: 15 mm.

Size	Black, Dark Grey, Anthracite	Black, Dark Grey, Grey	Brown, Brown, Beige
395 mm x 995 mm	CDM004	CDM005	CDM006

### Environmental Resistance

Suitable for indoor environments only

### Material

Made from natural and recycleable rubber, which is biodegradable and recyclable.

## COBA CARE DISINFECTANT BOOT BATH

Industrial grade hygiene mat that reduces footwear contamination, ideal to support COVID-19 protection

- Durable, industrial grade rubber nodules deliver excellent dirt scraping and trapping action, while the deep well of disinfectant solution cleans and sanitises footwear.
- 100% Recycleable rubber.
- Improves hygiene and contamination control by cleaning the soles of shoes and boots.
- Loose lay on level surface, no installation necessary, and fill base with COBA Care Disinfectant Solution.
- Combine with an absorbent mat to dry footwear when stepping out. We will gladly recommend the most suitable moisture control mat for your environment.
- Ideal for heavy industrial environments where hygiene is important e.g. mining, construction, engineering and farming.
- Slip-resistant base, with bevelled edges, to help retain position and reduce tripping hazards.
- Material: Recycleable Rubber.
- Inside Tray Depth: 44 mm.
- Product Height: 55 mm.

Size

810 mm x 975 mm

Black

BOOT-819950

Holds up to 7.3 liters disinfectant

Material

Recycleable Rubber.

## COBA CARE DISINFECTANT SHOE BATH

The hygienic mat that reduces footwear contamination, ideal to support COVID-19 protection

- Flexible natural rubber nodules deliver excellent dirt scraping and trapping action, while the disinfectant solution cleans and sanitises footwear.
- 100% Recycleable rubber.
- Loose lay on level surface, no installation necessary, and fill base with COBA Care Disinfectant Solution.
- Combine with an absorbent mat to dry footwear when stepping out. We recommend COBAwash®, Wash & Clean, Microfibre Doormat or the Social Distancing Floor Mat.
- Improves hygiene and contamination control by cleaning the soles of shoes and boots.
- Suitable for offices and other commercial buildings, as well as any workplace where hygiene is important e.g. healthcare, food manufacturing, catering, hospitality, clean rooms or food retail.
- Slip-resistant base, with bevelled edges, to help retain position and reduce tripping hazards.
- Material: Recycleable Rubber.
- Inside Tray Depth: 16 mm.
- Product Height: 26 mm.

Size

605 mm x 810 mm

Black

BOOT-618119

Material

Recycleable Rubber.

Holds up to 2 liters disinfectant.

## RINGMAT HONEYCOMB

Durable outdoor entrance mat with holes

- The ideal choice for demanding conditions such as icy, snow prone locations.
- Raised pattern surface provides increased grip to footwear while scraping away dirt and debris.
- Large holes allow dirt and debris to fall through, keeping it trapped.
- Product height: 23 mm.

### Environmental Resistance

Suitable for wet and dry environments, indoors or outdoors

### Material

Rubber mix, including >50% recyclable material.

### Size

0.4 m 0.6 m (16 mm)  
0.8 m x 1.2 m (23 mm)  
1 m x 1.5 m (23 mm)

### Black

RM010011  
RM010001  
RM010002

## WOVEN CONVEYOR MAT

A robust matting solution

- Ideal for not just for bakkies, horse boxes as well for blasting mats
- Blasting mats are so often used in the Metropolitan areas, and now with the economy and construction industry
- Material used Conveyor Strips
- Glued with CV2002 C
- Clean with hot water and dishwashing liquid

### Material

Recycleable Conveyor Rubber Material

### Size

Size Per Square Meter

### Black

WCM010001

## SUPERDRY HEAVY TRAFFIC

Reduce dirt and water brought in by forklift trucks

- Waffle pattern absorbs moisture and scrapes away dirt from forklift wheels.
- Reduces the risk of slips caused by water ingress.
- Reduces the risk of forklifts skidding or losing control on contaminated floor surfaces.
- Helps to keep cleaning costs down during bad weather.
- Simple to install using double sided adhesive tape.
- Large mats can be installed individually or laid next to each other to cover larger areas.
- Protects sub floor from damage.
- Easy to clean with a vacuum or stiff brush.
- Fitting instruction available.
- Product height: 10 mm.

### Environmental Resistance

Suitable for wet and dry indoor environments

### Material

PP carpet with Rubber backing

### Size

1.15 m x 1.8 m

### Charcoal

WHT010005

## COBASCRAPE

Multi-purpose doormat, suitable for outdoor and indoor use

- Multi-purpose doormat that scrapes away dirt and also retains water.
- Raised pattern scrapes away dirt and debris from footwear.
- Non-slip, helping to reduce the risk of slipping on wet floors.
- Holds up to 2.6 litres of water/ m<sup>2</sup> or 1.5 kg of dry dust/ m<sup>2</sup>.
- Ideal for industrial and manufacturing industries, where wet, greasy or oily conditions are present.
- Bevelled edging as a safety standard.
- Suitable for indoor or outdoor use.
- Slip tested to DIN 51130.
- Product height: 6 mm.

Size	Black
0.85 m x 1.5 m	CS010002
0.85 m x 3 m	CS010003
1.15 m x 1.75 m	CS010004

### Environmental Resistance

Suitable for wet and dry environments, indoors or outdoors

### Material

NBR

## FIRST-STEP

The first step to contamination control

- A hygienic pad of peel-off, disposable sheets, manufactured from an anti-microbial agent to protect against bacteria, mould and mildew.
- The 'tacky' sheets capture dirt and dust from footwear and wheeled equipment for contamination control.
- When the top sheet becomes soiled, simply peel it off to reveal a clean layer.
- Comes with self-adhesive backing to keep the mat in place.
- Ideal for hospitals, clean rooms, general industrial environments, and any other area where hygiene is an important factor.
- 4 Packs in a box with 30 peelable sheets per pack
- Product height: 1.5 mm.

Size	White	Blue
0.45 m x 1.17 m	WC000004	WC020004

### Typical Applications

Entrance areas, Clean rooms, Hospitals

### Environmental Resistance

Suitable for indoor environments only

### Material

PE with water based acrylic adhesive.

## **Electrical Safety Matting**

Safeguarding workers from  
the risk of electric shock

Electrical safety matting is essential for protection in high voltage areas, for example in front of switchboards and around high-power equipment. Our range includes three different options of electrical rubber matting, with various ratings and sizes to meet your specific requirements

## COBASWITCH BS EN: 61111

Electrical insulating matting that conforms to BS EN 61111:2009

- Specialist electrical insulating matting to protect operatives from electrical shocks.
- Conforms to the most recent internationally recognised safety standard IEC 61111:2009 / BS EN 61111:2009.
- Designed specifically for use in front of switchboards and for other areas with high voltage equipment.
- Three thicknesses available to meet the different classes of working voltage, Class 0, Class 2 and Class 4.
- Colour coded on the reverse clearly identifying the working voltage classification.
- Ribbed surface helps to provide a firmer footing, reducing the risk of slips while improving standing comfort.
- Product height: 3 mm, 4 mm, 5 mm.

### Typical Applications

Suitable for dry indoor environments

### Chemical Resistance

Resistant to acid and oil at low temperatures

### Material

EPDM rubber

Size	Black	Tested to BS EN 61111:2009	Working Voltage	Withstand Tested to
1 m x 10 m (3 mm)	SM010050	Class 0	1KV	10KV
1 m x per linear metre (3 mm)	SM010050C	Class 0	1KV	10KV
1 m x 5 m (3 mm)	-	Class 0	1KV	10KV
1.2 m x 10 m (3 mm)	SM010080	Class 0	1KV	10KV
1.2 m x 10 m (3 mm)	SM010080C	Class 0	1KV	10KV
1 m x 5 m (3 mm)	-	Class 0	1KV	10KV
1 m x 10 m (4 mm)	SM010060	Class 2	17KV	36KV
1 m x per linear metre (4 mm)	SM010060C	Class 2	17KV	36KV
1 m x 5 m (4 mm)	-	Class 2	17KV	36KV
1 m x 10 m (5 mm)	SM010070	Class 4	36KV	50KV
1 m x per linear metre (5 mm)	SM010070C	Class 4	36KV	50KV
1 m x 5 m (5 mm)	-	Class 4	36KV	50KV

## COBASWITCH

Specialist safety matting for high voltage areas

- Designed specifically for use in front of live switchboards and high voltage equipment for personal protection against electrical shocks.
- Ribbed rubber surface provides extra underfoot grip.
- Rubber has effective electrical insulating properties. (See individual volt testing.)
- 6 mm tested to 11,000 volts for 450 volt rated working.
- 9 mm tested to 15,000 volts for 650 volt rated working.
- 9 mm conforms to BS921/1976.
- Product height: 6 mm, 9 mm.

Size	6 mm	9 mm
0.9 m x 10 m	SM010010	SM010030
0.9 m x per linear metre	SM010010C	SM010030C
1.2 m x 10 m	SM010020	SM010040
1.2 m x per linear metre	SM010020C	SM010040C

### Typical Applications

High voltage areas,  
Open switchboards

### Environmental Resistance

Suitable for dry indoor environments

### Material

Natural rubber base polymer

## COBASWITCH VDE

VDE approved electrical switchboard matting for personal protection

- Lightweight VDE approved mat designed for use in front of open switchboards and high voltage equipment.
- Provides safety for operatives against electric shocks.
- Fine fluted surface has slip-resistance benefits.
- Tested to 50,000 volts according to DIN EN 60243-1 (VDE0303 part 21) IEC 60243-2:1996.
- Product height: 4.5 mm.

Size	Grey
1 m x 10 m (4.5 mm)	SM060010
1 m x per linear metre (4.5 mm)	SM060010C

### Typical Applications

High voltage areas,  
Open switchboards

### Environmental Resistance

Suitable for dry indoor environments

### Material

Rubber mix

## ESD Mats & Accessories

Protecting people and components  
from the effects of static electricity

Electrostatic Discharge (ESD) can be a problem in certain working environments and pose a major risk to electrical or explosive components. Floors, chairs, work surfaces and packaging can all create static electricity, which when released is known as Electrostatic Discharge. We have a comprehensive range of lab tested ESD floor mats and accessories to protect you and your electronic components against the harmful effects of static electricity.

COMFORT FACTOR (1-5)

WEAR RATING (1-5)

SLIP RATING (1-5)

## A GUIDE TO ESD PROTECTION

Electrostatic Discharge (ESD) can cause serious issues in automotive manufacturing, potentially damaging electrical components, or detonating airbags. Floors, clothing, and packaging can all create static electricity, which when released becomes known as Electrostatic Discharge. We have a comprehensive range of industry tested ESD floor mats and accessories to protect your valuable components against the harmful effects of static electricity.

### ESD EXPLAINED

Electrostatic Discharge (or ESD) is the sudden release of electricity between two electrically charged objects, commonly referred to as static electricity.

An effective solution is static-dissipative floor or work bench matting (ESD matting) which has conductive properties to draw the electric current away from the component.

For ultimate protection, they are used in conjunction with specialist ESD accessories such as heel grounders, wristbands and cords.

### ESD FLOOR MAT SAFETY

Choose the appropriate floor mat(1) for your workbench in line with resistance requirements. Electrical resistance is measured in ohms or shown as this symbol  $\Omega$ .

Operatives are advised to use two heel grounders(2), featuring a grounding tab to be used in the shoe, under the foot. Having chosen the appropriate floor mat, ensure you have a compatible floor mat grounding wire(3) to connect the earth bonding plug(4) to the mat.

Resistance $\Omega$	Type	Function
$10^3$ to $10^5$	Conductive	No initial charge. Provides path for charge to bleed off.
$10^5$ to $10^9$	Dissipative	No or low initial charge. Prevents discharge to or from human contact.
$10^9$ to $10^{12}$	Anti-Static	Initial charges are suppressed.
$> 10^{13}$	Insulative	Insulators and base polymers. Not ESD.

### ESD WORKBENCH SAFETY

Choose the appropriate mat for your workbench(5) in line with resistance requirements. ESD wristbands(6) are recommended to ground the operator when working with electronic components.

The fabric bands feature silver monofilaments for conductivity. They are designed to be fitted to a coiled grounding cord(7) and used in conjunction with a compliant earth bonding plug(8). A common point grounding wire connects the plug to the mat.

**IT IS CRITICAL NOT TO CONFUSE STATIC-DISSIPATIVE (ESD) MATTING WITH 'ANTI-STATIC' OR 'ELECTRICAL SWITCHBOARD MATTING'.**

## SENSO DIAL ESD

Tough ESD matting for every environment

- Durable ESD mat for demanding workplaces with excellent all-round safety features.
- Soft foam backing provides exceptional fatigue-relief.
- Patterned rubber top surface provides grip in slippery situations.
- Ramped edges to reduce trips.
- Bespoke sizes and shapes available.
- Rp-p and Rg  $1 \times 10^9 \Omega$  tested per IEC 61340-4-1
- Product height: 10 mm.

Size	Black
0.6 m x 1 m	SN010004ESD
1 m x 1.5 m	SN010005ESD
1 m x 10 m	SN010002ESD
1 m x per linear metre	SN010002CESD
1.2 m x 10 m	SN010003ESD
1.2 m x per linear metre	SN010003CESD

### ALSO AVAILABLE AS AN NON ESD ANTI FATIGUE MAT

#### Material

SBR/NBR top surface, EPDM foam base

## COBASTAT®

Comfortable anti-static mat for dry environments

- Comfortable and durable floor mat protects operatives from static build-up.
- ESD version of our popular Orthomat® anti-fatigue range.
- Grounded via a 10 mm male stud fitted to the mat.
- Maximum performance when used with grounding wire.
- Available as a handy COBASTAT® Floor Kit with accessories provided.
- Tested to EN14041 resistance requirements.
- Rv:  $1.1 \times 10^7 \Omega$
- Product height: 9 mm.

Size	Grey
0.6 m x 0.9 m	AS060001
0.9 m x 1.5 m	AS060002
0.9 m x 18.3 m	AS060003
0.9 m x per linear metre (max. 18.3 m)	AS060003C

#### Typical Applications

Around machinery where static build up is common.

#### Environmental Resistance

Suitable for dry indoor environments

#### Material

Closed cell PVC foam

## COBAELITE® ESD

Bubble surfaced mat to tackle fatigue in ESD sensitive areas

- Static-dissipative anti-fatigue mat for comfort and safety.
- Conductive buried layer neutralises static charge, protecting components.
- Comfortable bubbled surface promotes subtle movement further reducing fatigue.
- Grounded via a 10 mm male stud fitted to the mat.
- Meets or exceeds IEC61340-5-1 resistance requirements.
- Resistance to a groundable point (Rgp):  $2.4 \times 10^6 \Omega$
- Product height: 14 mm.

Size	Charcoal
0.6 m x 0.9 m	SE010001ESD
0.9 m x 1.2 m	SE010003ESD

## CONDUCTIVE RUBBER BENCH MATTING

Two layer anti-static rubber matting

- Dual layer mat manufactured from rubber with coloured top surface and black bottom surface.
- Top surface: 0.5 mm thick static-dissipative layer.
- Solder iron resistant and low reflecting bench mat ideal for electrical component manufacturing and refurbishment.
- Grounded via a 10 mm male stud fitted to the mat.
- Conforms to IEC 61340-5-1.
- Point to point resistance (Rp-p):  $5.2 \times 10^7 \Omega$
- Resistance to a groundable point (Rgp):  $2.7 \times 10^7 \Omega$
- Product height: 2 mm.

## ESD BENCH MAT GROUNDING KIT

Convenient accessory kit to complete your ESD bench mat setup

- High quality ESD accessories designed to connect seamlessly with standard components.
- Everything you need to keep a single operative compliant when working at an ESD bench.
- Each kit includes:
  - Single wristband with 10 mm male stud to connect to coil cord.
  - Single 1.8 m Coil cord with 10 mm male stud and 10 mm female stud incorporating 1 MΩ resistor.
  - Single common point ground wire 10 mm male stud and 10 mm female stud incorporating 4 mm banana socket – length 4.5 m.
  - Single earth bonding plug to connect lead to earth.

## ESD RUBBER BENCH MAT

Economical ESD work bench mat

- Rubber ESD bench mat fitted with 10 mm male stud.
- Solder iron resistant and low reflecting surface, ideal for working with electrical components.
- Easy to clean smooth surface.
- Conforms to IEC 61340-5-1.
- Point to point resistance (Rp-p):  $1.2 \times 10^4 \Omega$
- Resistance to a groundable point (Rgp):  $1.4 \times 10^4 \Omega$
- Product height: 2 mm

Size	Black
0.6 m x 1.2 m x 2 mm	ESDB010005

## TOUGH-LOCK ESD

Interlocking electrostatic dissipative floor tiles

- The resilient PVC material is suitable for both heavy and light industrial use, including withstanding the weight of most forklift trucks.
- ESD properties help protect personnel and components.
- Meets or exceeds BS EN 61340-5-1 Edition 2 2016-05 resistance requirements.
- Tiles are easy to install, with a simple interlocking system.
- Textured surface.
- We can incorporate almost any logo or symbol into your Tough-Lock floor to create a permanent and highly visual message. Logo tiles are cut by CNC water jet for precision.
- Bevelled edging is available to add that finishing touch.
- Surface Resistance:  $2.2 \times 10^4 \Omega / \text{m}^2 - 3 \times 10^6 \Omega$ .
- Resistance to a groundable point:  $2.9 \times 10^4 \Omega - 5.7 \times 10^5 \Omega$ .

# ESD ACCESSORIES

## EARTH BONDING PLUG

Standard plug to connect ESD floor or bench mats to earth

- An ideal solution to connect bench and floor mats to ground to avoid injury to personnel and damage to components.
- Works well with the anti-static wristband for personnel.
- Neutral and mains voltage pins are made from plastic, whilst the earth pin is metal for guaranteed safety.
- UK and EU versions available.
- Does not have a resistor as this is integrated with the grounding wire.

Size	Yellow
One size - SA version	ESDPLUGADAPT

## FLOOR MAT GROUNDING WIRE

Help protect equipment from static with an earth grounding wire

- Grounding wire for use with floor mats to help prevent static which could damage equipment.
- Conforms to 10 mm connection.
- Easy connection with female studs on each end.
- Fitted with a 1 meg  $\Omega$  resistor to help static discharge.

Size	Yellow
3.0 m	HR000011

## COMMON POINT GROUND WIRE

Safely grounds ESD Matting and operators

- 10 mm female stud at one end for connection to a 10 mm male stud on an Earth Bonding Plug.
- 10 mm female stud for connection to the mat, along with a 10 mm male stud.
- 4 mm banana socket for connection to operator coil cord.
- Length: 4.5 m wire for connection to earth plug.

Size	Yellow
4.5 m	HR000005

## COIL CORD

For use with an ESD Wristband or Heel Grounder

- PE conductive coil cord.
- Good coil memory and tangle-free.
- 1 meg  $\Omega$  resistor incorporated for operator safety.
- 10 mm female stud to 10 mm female stud.
- Max length: 1.8 m.

Size	Yellow
1.8 m	HR000006

## HEEL GROUNDER

Conducts harmful static for operator safety

- Designed to ground the operator when used on suitable conductive or dissipative flooring.
- Hardwearing, long-lasting rubber construction suits all shoe sizes and shapes.
- Fully adjustable, lightweight design
- Conductive tab ensures reliable and effective skin contact.
- Two grounders recommended at all times for complete ESD safety.
- Fitted with a 1 meg  $\Omega$  resistor for operator safety.

Size	Black
One size	HR000008

## WRISTBANDS

Comfortable and functional grounding wristband

- Crochet style elasticated, fully adjustable wristband, manufactured in the UK.
- Quality manufacture for durability.
- Woven silver monofilaments conduct static while providing excellent band to skin contact.
- Fits to the coiled ground wire via a 10 mm male stud.
- Meets or exceeds IEC61340-5-1.

Size	Dark Blue
One size	HR000007

## Entrance Matting Systems

Tackling dirt and protecting  
interior surfaces

COBA offers an extensive range of Aluminium, Carpet and Tiled based entrance matting systems that are both stylish and deliver superior wear resistance for busy areas subjected to high volumes of pedestrian footfall. Many of our options have environmentally friendly materials in their manufacture. Whether it is interlinking entrance tiles, carpet on rolls or a custom-made aluminium system, our trained sales team can advise at every stage of specification and installation.

## ZONES

We recommend a zoning system when choosing your entrance matting. Whether your entrance extends outdoors or is fully covered, creating three zones delivers optimum dirt barrier performance, ensuring interior floors are kept clean and hazard free.

									
Light	Medium	High	Very High	Light	Medium	Heavy Duty	Max Duty	Dirt	Moisture
Less than 80 people per hour 3-4 metres	Up to 300 people per hour 6-7 metres	Around 600 people per hour 8-10 metres	Over 5,000 people per day 9-12 metres	Suitcases, Wheelchairs	Supermarket Trolleys, Sack barrows, Luggage trolleys	Supermarket Cages, Pallet Trucks	Forklift Trucks, Hydraulic Cranes	Most Effective Against Dirt/Soil	Most Effective Against Moisture
Pedestrian Traffic				Wheeled Traffic				Contaminants	
It is important that matting is a sufficient length to allow moisture and debris to be wiped off footwear as people walk across the mat. Our COBA Flooring team recommends a minimum of six footsteps for this to be effective.				Depending on the nature of the building, the entrance may have to contend with different types of wheeled traffic. It is important that all matting complies with DDA Regulations/The Equality Act, so that wheelchairs can safely move on and off.				All of our products protect you against contaminants, but some products are more effective than others for removing either dirt or moisture. Use these icons to determine which.	

## PLAN.A™

Defend against dirt and moisture with versatile aluminium entrance matting

- Robust, high-quality aluminium system for heavy-duty use designed to cope with high footfall.
- Flexible, yet durable PVC linking joints for ease of handling and easy fitting.
- Custom-made to order to your specifications.
- Choose from one, or a combination of different surface options.
- Also now available with vibrant coloured needle punch or needle felt polypropylene carpet inserts as used in our Logomat Precision products.
- Manufactured in SA from imported products.
- Fire tested to BS EN 13501-1 and slip tested to BS 7976-2.
- Product height: 10 mm, 17 mm.

## PREMIER TRACK

Protect internal flooring with heavy-duty, premium quality entrance tiles

- Effectively removes moisture and debris, even from wheeled trolleys, without buckling.
- Safe for high heeled footwear, heels won't get stuck in the tiles.
- Move, clean or replace individual tiles - they clip together with ease.
- Easily cut to shape, so you can fit to any space and install faster with fewer specialist tools.
- Exceptionally durable carpet inserts manufactured from ECONYL®, a recyclable nylon material made from discarded fishing nets and other sources.
- Ideal for recessed entrance wells.
- Fire tested to BS EN 13501-1 and slip tested to BS 7976-2
- Product height: 12.5 mm.

## PREMIER STAR GRIPPER PLUS

Interlocking carpet entrance tiles to keep internal floor coverings clean and slip free

- ➔ NEW – Closed Construction Tiles.
- ➔ Interlocking entrance tiles designed for a matwell.
- ➔ Two surface options available: Polypropylene carpet or Woven Brush.
- ➔ Solid surface tiles effectively capture dirt to protect interior floors.
- ➔ Hardwearing woven brush inserts scrape dirt and wipe moisture.
- ➔ Woven Brush showed no wear or tear after 100 000 scrapes with point weight of 2kg.
- ➔ PVC base tile is manufactured from 100% recycleable materials.
- ➔ Suitable for high volume footfall in commercial locations.
- ➔ Shrinkage may occur over time; especially when exposed to sunlight and cold environment
- ➔ Tiles simply clip together on site for ease of transportation and installation.
- ➔ Move, clean or replace individual tiles – they clip together with ease
- ➔ Product height: 14 mm

## FLOOR TRIMS

A range of designer floor transitions and practical flooring edges and finishers.

Without the right finishing touches in place a floor can easily lose its impact, to the detriment of your interior design. The DHC (Designer Home Collection) is a range of 15 floor transition strips and nosings, available in 8 sleek finishes that mimic high end materials like brass and bronze without the price tag of solid metal. We also offer a practical range of plastic and vinyl finishers such as bevelled edges, expansion joints and cove and fillet profiles.

## Flooring Trims & Carpet Trims

Flooring trims are an often overlooked aspect of a floor covering selection process—whether it be an end-user, interior designer, or architect. Whilst many see these thresholds as simply a necessity others use them to add flair and style to their home décor; no matter what type they're looking for - from subtle embellishments to bold statements pieces - there's something here for everyone! COBA believes that high-quality flooring trims enhance the quality of any installation and consumers are taking notice. Take a look at our Designer Home Collection range by Carpet Accessory Trims (CAT). High grade Aluminium Floor trims with 25 micron anodisation, manufactured in the UK, and now available here in SA.

## CAPPING STRIP

Provides vinyl flooring with a professional finish

- Capping Strip offers a sealed finish around a room when the vinyl flooring extends up the wall.
- Available in 5 different colours to suit various floor finishes.
- Made from PVC it can be moulded and shaped as required.
- PVC won't chip, crack, cup, or bow, and it won't rot or be prone to insect infestation. Thus the ideal option for areas where hygiene is important.
- PVC doesn't absorb moisture, it's an excellent choice for use in humid areas.

Size	Black	Green	Dark Blue

Size	Medium Blue	Dark Grey	Light Grey
6 mm x 22 mm x 80 m	H486/M-BLUE	H486/GREEN	H486/L-GREY

**CAPPING STRIP CAN BE USED IN CONJUNCTION WITH A COVE FILLET TO PROVIDE A PROFESSIONAL FINISH AND EASY MAINTENANCE SOLUTION TO VINYL FLOORING IN MOISTURE SENSITIVE AREAS.**

## COVE FILLET

A flexible flooring option

- PVC can be molded and shaped to your preference.
- Can fit around curved and oddly-shaped exterior features.
- PVC won't chip, crack, cup, or bow, and it won't rot or be prone to insect infestation. Thus the ideal option for areas where hygiene is important.
- PVC doesn't absorb moisture, it's an excellent choice for use in humid areas.
- Due to the easy mold and cutting of PVC, there is little to no waste on the construction site.
- Used as transitional filling for vinyl flooring. This will avoid vinyl from cracking if it goes up the wall

## BEVELLED EDGING

Offers a neat finish to loose lay mats.

- Bevelled PVC Edging offers a neat finish to loose lay mats.
- Edging is adhered to mats to prevent people from tripping over the mat and to ensure smoother trolley movement.
- The 30 mm edging is compatible with the following products: Cushion Fall, Spectra Clean, Berberpoint, Alba, Trio Brush
- The 45 mm edging is compatible with the following products: Super Contract Fall, Trio Scraper, Super Scraper, 17mm Coir

Size	Dark Grey
35 mm x 1 m x 9.5 mm	EDGE PVC9.5
45 mm x 1 m x 14 mm	EDGE PVC14

## COBA EXPANSION JOINTS

The perfect solution for high performance floor tiling in a commercial or residential setting.

- Our expansion joints are produced with certified PP/LDPE material to provide better impact strength.
- LDPE insert is renewable / removable if worn or damaged.
- Custom/branded punch outs optional.
- Can be made in any colour required.
- Locally produced.
- Filament structure creates a capillary effect for improved dirt retention/absorbency.
- Luxuriously soft pile that looks smart and will not lint.
- Environmentally-friendly – does not require chemical pre-treatment or washing detergents.
- Samples are available on request for pre-qualified leads and resellers only.
- Strength designation: 4.6%.

Size	Dark Grey	Light Grey	White
10 mm x 2,5 m	A1347-2500	A1346- 2500	A1348- 2500

## EMS EXPANSION JOINT

Entrance Matting Accessories

- Produced with certified PVC.
- A back Expansion piece is attached to the last rail where a full rail can't be used.
- Typically used in Entrance areas as an accessory to Entrance Matting Systems.
- UV resistance and able to withstand heavy to very heavy traffic.
- Samples are available on request for pre-qualified leads and resellers only.
- Available in two different heights to match your recessed mat height.

Size	Size	Black

4m	High Profile 17 mm	P457

## Entrance Mats

Reducing walked-in dirt and moisture to prevent slips

From heavy-duty rubber entrance mats to lightweight dust mats, COBA has it covered! This section is packed with contemporary and traditional designs to suit most budgets, with options in a wide variety of sizes, colours, and wear grades for indoor and outdoor dirt/moisture control.

## SENTINEL COMMERCIAL ENTRANCE MAT

Low profile entrance mat

- This mat is the ideal solution for an entrance where height is an issue
- Nitrile rubber backing creates grip to avoid mat from moving around with trolley movement
- Provides moisture control to avoid slipping hazards when entering a facility
- Effectively removes dirt and debris from shoe soles to protect internal flooring
- This mat is a moulded base of UV treated polypropylene with a block pattern
- Available in 3 colours: Charcoal, Brown and Blue

Size	Charcoal, Blue and Brown

1.50m x 3.65m	SEN020011

**Material**

Nylon

**Resistance to Environment**

Suitable for indoor environments

## FINGERTIP

Natural rubber doormat gives dirt the brush-off

- Flexible rubber nodules deliver excellent dirt scraping and trapping action.
- Dirt is effectively brushed off then retained in a solid base, keeping floors cleaner for longer.
- Suitable for offices and other commercial buildings, especially where mud and debris often end up indoors.
- Suitable for most weather conditions, making it ideal for outdoor use.
- Slip-resistant base, with bevelled edges, to help retain position and reduce tripping hazards.
- Product height: 13 mm.

Size	Black
0.8 m x 1 m	FT010002
0.9 m x 1.5 m	FT010006

**Environmental Resistance**

Suitable for indoor and outdoor environments

**Material**

Natural rubber with 70% recyclable content

## COBAWASH®

A real asset in floor protection for domestic and commercial use

- Easy to clean, practical and machine washable.
- Easy care, smaller sizes\* can be washed in a domestic washing machine. (All sizes can be washed in an industrial washing machine.)
- Carpet pile can retain up to 3.5 litres/ m<sup>2</sup> of moisture.
- Also traps up to 800g of debris/dry dust.
- Bleach and fade resistant – 11-year warranty against significant colour loss.
- Product height: 12 mm.

### Material

Nylon

### Resistance to Environment

Suitable for indoor environments

## COIR

Classic dirt-scraping entrance mat made from coconut husks

- Natural doormat made from coconut husk fibres.
- Hardwearing and absorbent, coir fibres are renowned for their dirt-scraping properties.
- A traditional doormat, ideal for public entrances.
- Suitable for indoor use. Can be used on floor surfaces or installed into matwells.
- Heavy-duty, anti-slip vinyl backing for minimum movement.
- Product height: 17 mm, 23 mm.

### Environmental Resistance

Suitable for indoor environments or covered outdoor areas

### Material

Natural coir fibre

## MICROFIBRE DOORMAT

Washable doormat with super absorbency and microfibre technology

- Multi-action entrance mat with hygienic microfibre technology.
- Flexible, ultra-fine fibres (finer than a human hair) provide deep-cleaning action on passing footwear.
- Friction from the fibres generates a static charge that attracts and traps dust/debris.
- Effectively penetrates those hard to reach treads on footwear and wheeled trolleys.
- Superior 'brushing and wiping' with 'rapid dry' properties that outperform cotton.
- Luxuriously soft pile that keeps entrances looking smart, stylish and free from lint.
- Environmentally-friendly – does not require chemical pre-treatment or washing detergents.
- Product height: 8 mm.

Size	Black
0.6 m x 0.9 m	MF010001
0.9 m x 1.5 m	MF010002
1.2 m x 1.8 m	MF010003

### Environmental Resistance

Suitable dry indoor environments

### Material

100% Polyethylene Multi-fiber

## SUPERDRY

High performance mat with optimum moisture retention

- Heavy-duty entrance matting, ideal for office spaces and general workplaces.
- Raised, reinforced 'waffle' pattern scrapes dirt away from footwear, helping to reduce the amount of dirt/debris brought into the building.
- Exceptional moisture wiping properties. Able to retain up to 5.4 litres water/ m<sup>2</sup>.
- Lipped edges to help reduce tripping hazards and rubber backing for slip-resistance.
- Product height: 7 mm.

### Environmental Resistance

Suitable for indoor environments only

### Material

PP with rubber base.

## **Standing Desk Mats**

Bringing comfort to the workplace

There have been many changes in the workplace over the last few years due to an increased awareness of the negative effects of office ergonomics. This category contains two anti-fatigue mats designed to reducing discomfort for office workers that stand, either at work or at home.

## ALBA ANTI-FATIGUE

Anti-fatigue comfort mat with durable carpet surface

- Smart cut-pile carpet top surface blends in with modern interiors and adds an extra layer of comfort.
- Foam base layer provides relief from prolonged standing and stimulates movement to support circulation.
- Helps to delay the onset of pain and tiredness otherwise experienced from standing on hard or firm floor surfaces.
- Ideal for offices, receptions, hospitality front of house, and domestic use.
- Bevelled edges and rounded corners reduce the risk of trips.
- Exceptionally durable carpet made from ECONYL®, a recycleable nylon material made from discarded fishing nets and other sources.
- Available in two sizes to suit different desks and spaces.
- Product height: 14 mm.

Size	Anthracite	Grey
0.5 x 0.85 m	AAF010001	AAF060001
0.6 x 1.0 m	AAF010002	AAF060002

## ORTHOMAT® OFFICE

The anti-fatigue mat for office workers

- Improves overall posture and wellbeing when standing in static positions.
- Provides just the right balance between cushioning and foot support for users of sit/standing desks.
- Helps to delay the onset of pain and tiredness otherwise experienced from standing on hard or firm floor surfaces.
- Textured underside keeps this anti-fatigue mat in place.
- Gentle bevelled edges to reduce trip hazards, while creating a neat 'anti-curl' finish that sits flush to the floor.
- Highly durable, can withstand a wide range of footwear (excluding thin heels such as stilettos).
- Handy size for ease of handling making lifting and moving an effortless task.
- Fits into most office workstations.
- Product height: 16 mm.

Size	Black
0.5 m x 0.8 m	OO010001

## CHAIRMAT

100% Recycleable PVC Interlocking Floor Tiles

- An ideal low cost solution for protecting floor surfaces.
- Easy DIY installation – no adhesive required.
- Installation instructions provided.
- Made from recycleable PVC – non-conductive and fire resistant.
- Each Chairmat consists of smooth interlocking tiles and edging.
- Long life span in outdoor conditions.
- Open holes allow grass to grow through.
- Product Height: 6 mm.
- Strength designation: 4.6%

## **Mats for Leisure**

Working out floor protection  
and slip prevention

COBA has been supplying the leisure industry with safety matting for many years, and we have a range of options that reflects our experience in this sector. Hygienic anti-slip matting for swimming pools and changing rooms, quality gymnasium matting, and Critical Fall Height tested rubber safety matting for playgrounds give just a flavour of what's on offer. We also supply a range of equestrian rubber matting for use in stables and equine wash down areas.

## FATIGUE-STEP

Safety rubber tiles for playgrounds

- Interlocking rubber tile system to cover large or small areas.
- Provides safety for playgrounds.
- Anti-slip surface reduces risks (tested to DIN 51130).
- Ideal safety matting for outdoor areas.
- Durable and easy to clean.
- Easy to relocate or replace.
- Fits in natural environment.
- Suitable for all weather, extreme temperatures and resists wind uplift
- Open holes allow grass growth and provide optimal drainage.
- Product height: 14 mm, 18 mm.

Size	Black
0.9 m x 0.9 m	SS010001
0.9 m x 0.9 m	SS010006

### Typical Applications

Children's play areas.

### Environmental Resistance

Suitable for wet and dry environments.

### Material

Rubber mix, including >50% recyclable material

## RINGMAT HONEYCOMB

Safety matting for children's play areas

- Provides child fall safety for playgrounds.
- Anti-slip surface reduces risks.
- Perfect safety matting for outdoor areas.
- Hardwearing and durable.
- Appearance suits natural environment.
- Can be used on flat or contoured landscapes
- Suitable for all weather, extreme temperatures and resists wind uplift.
- Open holes allow grass growth and provide optimal drainage.
- Connectors available to link matting for larger areas.
- Tested to BSEN1177:1998
- Product height: 23 mm.

Size	Black
0.8 m x 1.2 m (23 mm)	RM010001
1 m x 1.5 m (23 mm)	RM010002

### Environmental Resistance

Suitable for wet and dry environments, indoors or outdoors

### Material

Rubber mix, including >50% recyclable material.

## STABLEMAT

Safe and easy to clean mats for stables and horse boxes

- Premium quality non-porous, rubber matting for stables.
- Specially designed, anti-slip surface provides maximum grip for both horse and handler.
- Ideal for use as bedding in horse stables, yard flooring, and horse boxes.
- Simple to install and cost-effective alternative.
- Reduces the amount of bedding required.
- Creates a comfortable and safe cushioned standing surface for horses.
- Stable matting reduces dust levels for improved health.
- Grooved underside for effective drainage.
- Product height: 12 mm, 17 mm.

### Typical Applications

Stables, Horse boxes.

### Environmental Resistance

Suitable for wet and dry indoor environments

### Material

Rubber mix, including >50% recyclable material.

1.2 m x 1.8 m (12 mm)	HM010002

## WEIGHTROOM MAT

Heavy-duty floor protection for your gym

- Shock absorbent and will protect your subfloor from damage when dropping weights.
- Increases safety as dropped weights bounce and roll less.
- Easy to clean and maintain.
- Non porous rubber – sweat and other liquids cannot penetrate into the mat.
- High durability.
- Effective in reducing noise levels.
- Reversible offering the option of wide ribbed or textured surface.
- Mats can be tightly butted together to cover larger floor areas.
- Product height: 12 mm, 17 mm.

Size	Black
1.2 m x 1.8 m (12 mm)	HM010002
1.2 m x 1.8 m (17 mm)	HM010001

### Typical Applications

Gyms, Weight rooms.

### Environmental Resistance

Suitable for wet and dry indoor environments

### Material

Rubber mix, including >70% recyclable material.

## DECKSTEP

Ribbed vinyl matting for swimming pools

- Raise people's feet off wet floor surfaces.
- Reduce the risk of slips by keeping feet above surface water.
- Provides a more comfortable barefoot walking surface than tiled floors.
- Textured surface provides slip resistance.
- Flexible and lightweight – easy to move and clean.
- Ribs are welded together for strength.
- Slip tested to DIN 51130 - R10 and DIN 51097.
- Product height : 11.5 mm ±0.5 mm

### Typical Applications

Swimming pools, Changing rooms, Showers, Gyms.

### Environmental Resistance

Suitable for wet and dry indoor environments

## Floor Coverings

Increasing comfort  
and protecting floors

Covering concrete can be a simple and effective way of making an area more comfortable to work in but also easier to clean and more attractive. Our rubber tiles feature a timeless design suitable for a wide array of locations, and our interlocking vinyl solutions can be fitted quickly and easily and even without adhesive. We also have accessories to make fitting a breeze!

## MK3 RUBBER FLOOR TILE PACKS

100% Recycleable Rubber and Plastic Drainage Mats

- ➔ Anti-fatigue, non-slip, drainage and protection mat.
- ➔ Easy DIY installation with interlocking system that conceals joins.
- ➔ Used in wet and dry areas including cold rooms, outdoor pool areas, bars and restaurants, changing rooms and DIY bakkie mats.
- ➔ Great as a shower drainage mat.
- ➔ Samples are available on request for pre-qualified leads and resellers only.
- ➔ Product height: 20mm

Size		Black
480 mm x 480 mm	2 tiles per pack	RUBMK32
	<b>Edging</b>	<b>Black</b>
480 mm x 180 mm	Female Edging	RUBMK3RF
480 mm x 180 mm	Male Edging	RUBMK3RM

### Typical Applications

Cold rooms, outdoor pool areas, bars and restaurants, changing rooms and DIY bakkie mats.

### Environmental Resistance

Suitable for wet and dry areas

### Material

100% recycleable rubber & plastic

## MK1 RUBBER TILE

Recycleable Rubber & Plastic Interlocking Floor Tiles

- ➔ Made from recycleable rubber thermoplastic compound.
- ➔ Highly durable – industrial quality.
- ➔ Uses include: Workshop, garages, storerooms and factories.
- ➔ No adhesive required.
- ➔ Please note: This product may discolour and warp if laid in areas exposed to direct sunlight.
- ➔ Product height: 8 mm.

Size	Part Description	Black
465 mm x 30 mm	Edging	RUBMK1R8
465 mm x 465 mm	Pack	RUBMK14

### Typical Applications

General industrial

### Environmental Resistance

Suitable for indoor environments

### Material

Recycleable Rubber & Plastic

## KNEE-SAVER

Prevent strain from kneeling

- Adaptable pad for all uncomfortable kneeling jobs.
- Reduces knee pain and lower back stress caused by regular kneeling.
- Lightweight to carry – only 0.35 kg per pad – with carrier handle.
- Good resistance to oils and chemicals.

Size	Black
530 mm x 360 mm	KS010001

## COBAGUARD UNIVERSAL

Protects floor surfaces from paint and debris when decorating

- Adaptable film which can be applied to most surfaces including carpet, laminate, ceramics and glass.
- Product height: 80 µ (mic).

Size	Clear
0.6 m x 10 m	CGU00001

### Environmental Resistance

Temporary protection of carpets and hard floors

### Material

PE (LDPE and LLDPE) film

## KWIKLOK TILES

### 100% Recycleable PVC Interlocking Floor Tiles

- Easy DIY installation.
- Popular low cost flooring for inside the house or office, playrooms and garages.
- No adhesive required.
- Made from 100% recycleable PVC.
- Non conductive and fire resistant.
- Please note: This product may discolour and warp if laid in areas exposed to direct sunlight.
- Do not expose to direct sunlight or extreme temperatures.
- Edging available on special order.
- Samples are available on request for pre-qualified leads and resellers only.
- Our interlocking tile range should only be used on floor applications, if these tiles were to be used on walls or any other application, please consult an adhesive specialist to ensure that the correct adhesive is used for your installation. Always consult your Sales Account Manager to ensure this product can be installed on your specific site for the application you require
- Product height: 6 mm

Size	Part Description	Black
465 mm x 30 mm x 6 mm	Edging	RUBKLR6
465 mm x 465 mm	Tile	RUBKL6
465 mm x 465 mm	4 tiles per pack	RUBKL64

#### Typical Applications

Ideal for use in home or office, playrooms and garages.

#### Material

100% Recycleable PVC Interlocking Floor Tiles

## KWIKLOK VIRGIN MATERIAL

### Virgin Material Interlocking Floor Tiles

- Easy DIY Installation.
- Virgin material means no blemishes, leaving you with better esthetics
- Popular low-cost flooring for inside the house or office, playrooms, and garages.
- No adhesive is required (see installation tips).
- Do not expose to direct sunlight or extreme temperatures
- Long life span in outdoor conditions.
- Open holes allow grass to grow through.
- Machine washable at 30°C.
- Product Height: 6 mm.
- Strength designation: 4.6%.
- Our interlocking tile range should only be used on floor applications, if these tiles were to be used on walls or any other application, please consult an adhesive specialist to ensure that the correct adhesive is used for your installation. Always consult your Sales Account Manager to ensure this product can be installed on your specific site for the application you require
- MOQ of the tile: 300
- MOQ of the edging: 2000
- Product height: 6 mm

Size	Part Description	Black
465mm x 465mm x 6mm	Tile	RUBKL6V
465 mm x 30 mm x 6 mm	Edging	RUBKLR6V

#### Typical Applications

Ideal for use in home or office, playrooms and garages.

#### Material

100% Recycleable PVC Interlocking Floor Tiles

## Floor Level Safety Accessories

Defining dangers and increase pedestrian safety

The most commonly occurring cause of non-fatal accidents in the workplace continues to be slips and trips. Injuries resulting from such accidents cause pain and suffering for the individual but can also be complex for the site owner or employer. By reducing the risk of slips with non-slip floor surfaces or highlighting floor level hazards with tape and cable protectors, this will go a long way to reducing overall risk.

## COBAGRIP® STAIR NOSING

Increase stair safety with highly visible anti-slip stair nosing

- Durable and easy to install on both existing and new-build steps.
- A hard wearing, gritty surface available in bright colours helps protect against slips and trips whilst highlighting steps for the visually impaired.
- Manufactured with chamfered back edge for additional safety.
- Product height: 5 mm.

Size	Yellow	Black	Black/Yellow
0.75 m x 55 mm x 55 mm	GRP070005N	-	GRP010705N
1 m x 55 mm x 55 mm	GRP070004N	GRP010004N	GRP010704N
1.5 m x 55 mm x 55 mm	GRP070003N	GRP010003N	GRP010703N
2 m x 55 mm x 55 mm	-	GRP010002N	GRP010702N
3 m x 55 mm x 55 mm	-	GRP010001N	-

## COBAGRIP® STAIR TREAD

Increase stair safety with a non-slip silicon carbide surface finish

- Fully cover a stair area with an anti-slip surface.
- Each stair tread covers the entire step area, overlapping the edge onto the riser acting as stair protectors.
- Available in yellow or white, which both meet current Equality Act requirements.
- The perfect match with our COBAGRiP Sheet.
- Product height: 5 mm.

Size	Black/Yellow	Black/White
1 m x 345 mm x 55 mm	GRP010704S	GRP010134S
1.5 m x 345 mm x 55 mm	GRP010703S	GRP010133S
2 m x 345 mm x 55 mm	GRP010702S	-
3 m x 345 mm x 55 mm	GRP010701S	GRP010131S

## COBAGRIP® SHEET

GRP flooring is the ideal solution to combat slip hazards such as liquids and ice

- An easy to install anti-slip solution for internal and external areas.
- Simply bond or screw the GRP flooring onto the existing floor surface.
- Fire Tested to DIN 13501: Bfl - s1 (2018) & EN ISO 11925-2:2020 & EN ISO 9239-1:2010 (both 2021)
- Slip Tested to DIN 51130 - R13 & BS 7976-2 - low slip potential.
- Product height 5 mm.

### Size

1.2 m x 1.2 m

### Black

GRP010002

### Typical Applications

Internal & external walkways

### Environmental Resistance

Suitable for indoor and outdoor environments

### Material

GRP

## COBAGRIP® LIGHT

GRP flooring solution for use on undulating surfaces

- An easy to install anti-slip solution for internal and external areas.
- Silicon carbide surface for high anti-slip protection it's ideal for use on undulating surfaces including factory walkways, ramps and bridges.
- Simply bond or screw the GRP flooring onto the existing floor surface.
- Fire Tested to DIN 13501: Bfl - s1 (2018) & EN ISO 11925-2:2020 & EN ISO 9239-1:2010 (both 2021)
- Slip Tested to DIN 51130 - R13 & BS 7976-2 - low slip potential.
- Product height: 3 mm.

### Size

1.2 m x 1.2 m

### Black

GRP010002L

### Typical Applications

External walkways

### Environmental Resistance

Suitable for indoor and outdoor environments

### Material

GRP

## GRIPFOOT

Improve grip on smooth surfaces with an abrasive grit finish

- Self-adhesive tapes, cleats or tiles with an abrasive grip surface which helps to improve anti-slip properties.
- A hardwearing and easy to install solution to help prevent slips and trips.
- Available in a range of colours, including a hazard version which provides high visibility in darkness and low light conditions.
- Gripfoot Tape – versatile for floor surfaces, machinery and vehicles.
- Gripfoot Cleats (rectangular) are designed for use on steps and stairs.
- Gripfoot Tiles (square) are ideal for increasing safety on smooth, tiled floors.
- Slip tested to DIN 51130
- Product height: 0.9 mm.

Size	Black	Clear	Black/ Yellow	Blue	Red	Red/White	Green	Yellow	Luminous
25 mm x 18.3 m	GF010001	-	-	-	-	-	-	-	-
50 mm x 18.3 m	GF010002	GF120002	GF010702	GF020002	GF030002	GF031002	GF040002	GF070002	GF110002
102 mm x 18.3 m	GF010003								
152 mm x 18.3 m	GF010004								
140 mm x 140 mm	GF010005 Pack of 10								
152 mm x 610 mm	GF010006 Pack of 10								

## GRIPFOOT CONFORMABLE

Improve grip on irregular surfaces with this abrasive grip finish

- Self-adhesive foiled backing tape with an abrasive surface to help improve anti-slip properties.
- A foiled backing allows for rolling and hammering into shape on irregular surfaces.
- Product height: 0.9 mm.

Size	Black
50 mm x 18.3 m	GF010002C
102 mm x 18.3 m	GF010003C
152 mm x 18.3 m	GF010004C
140 mm x 140 mm	GF010005C
152 mm x 610 mm	GF010006C

## ALUMINIUM STAIRTREAD

Reduce slips and increase safety on stairs with a highly visible stair tread

- Helps protect stairs from wear and tear, whilst also increasing safety.
- Easy to install and replace.
- An aluminium plate with non-slip tape bonded to it to increase traction.
- Available in packs of five, or individually.

Size	Black	Black/Yellow
625 mm x 114 mm	GF010011	GF010711
625 mm x 114 mm	Pack of 5	GF010010

## COBATAPE

Clearly define areas and hazards with floor tape

- A self-adhesive backed vinyl floor tape to quickly mark lines on floors.
- An ideal solution to mark out areas within factories and industrial settings.
- Available in a number of colours, with plain and hazard striped options available to increase visibility further.

Size	Black	Blue	Red	Green	Yellow	White	Black/Yellow	White/Red	White/Green
50 mm x 33 m	TP010002	TP020002	TP030002	TP040002	TP070002	TP130002	TP010702	TP130302	TP130402

## BARRIER TAPE

Create temporary barriers to hazardous areas

- Durable and easy to apply to inside or outside areas.
- Red and white striped means the tape is highly visible.
- Strong non-adhesive polyethylene barrier tape for industrial environments.

Size	Red/White
76.2 mm x 500 m	BT130301

## DOUBLE SIDED TAPE

High strength double sided tape ideal for Superdry Heavy Traffic

- High performance double-sided filmic bonding tape
- Achieve a tougher, thinner, weather resistant bond.
- A tough polyester carrier forms the base for a very strong, high shear solvent acrylic adhesive.
- UV, temperature and moisture stable.
- Product height: 0.215mm – 0.225mm.

Size	Clear
50 mm x 50 m	DST0001

## CABLEPRO GP

All-purpose cable cover available in 3 m or 9 m lengths

- Reduce trip hazards caused by trailing cables.
- Protect cables and wires from being pulled and causing costly damage to equipment.
- Hazard strip version for increased visibility.
- Tapered edges to reduce trip hazards.
- For inside and outside use.
- Ideal for offices, warehouses, events, shows and exhibitions.
- Features a pre-cut slit on the reverse to make inserting cables easy.

Part	Size	Black	Black/Yellow
GP1	3 m	CP010012	CP010711
GP2	3 m	CP010013	CP010712
GP1	9 m	CP010005	CP010701
GP2	9 m	CP010006	CP010702

## CABLEPRO HD

One or two duct heavy-duty cable protector

- Tough ramped edges keep cables protected from wheeled traffic such as cars and forklifts.
- Can take a max weight of up to 1500 kg.
- Large 23 mm diameter channels accommodate heavy-duty cables.
- Suitable as indoor or outdoor cable protector.
- Ideal for industry, warehouses, events, shows and exhibitions.
- Features a pre-cut slit on the reverse to make inserting cables easy.

Part	3 m	4.5 m	9 m
HD1	CP010007	-	CP010001
HD2	-	CP010009	CP010002

## CABLEPRO DATA

Protect data cables, reduce trip hazards

- Ideal for keeping multiple cable types separated.
- Reduce trip hazards caused by trailing cables.
- Protect cables and wires from being pulled and causing costly damage to equipment.
- Tapered edges to reduce trip hazards.
- For inside and outside use.
- Ideal for offices, warehouses, events, shows and exhibitions.
- Features a pre-cut slit on the reverse to make inserting cables easy.
- Data 1 has two ducts of the same size
- Data 2 has two ducts, one medium-sized and one larger. The cable protector is larger than Data 1 to allow more cables.

Data1

Data2

Size	3 m	9 m
Data1	CP010010	CP010003
Data2	CP010011	CP010004

(Data1)

(Data2)

## CABLEPRO MAT

Designed to be laid over cables to reduce trip hazards

- Special cable mats for protection from tripping hazards due to loose cables lying around.
- Extremely durable nylon surface in dappled colour shades.
- Cleated non-slip backing made from durable nitrile rubber with integrated cable run.
- Edge in hazard stripe.
- Light-resistant and suitable for underfloor heating.
- Anti-static.
- Easy to lay out, reposition and clean.
- Ideal for events, shows and exhibitions.
- Product height: 13 mm

Size	Anthracite
0.4 m x 1.2 m	CPM010701

## Rubber Sheeting

Providing rubber sheet materials for all purposes

A complete range of quality rubber sheet material for countless applications. Rubber sheet is used for a myriad of purposes including waterproof seals and gaskets, shotblasting, and food and beverage applications. With over 40 grades on offer, we can provide what you need. Available to order in rolls and by the metre.

## RUBBER INSERTION

Used in a range of industrial application

- A standard multi-purpose rubber sheeting for low-cost waterproof seals and gaskets. Rubber insertion sheet featuring embedded textile reinforcement for increased tensile strength and tear resistance.
- Ideal for many general-purpose applications. 68 degrees shore A hardness.
- Tensile strength at break: 3.0 Mpa. Elongation at break: 200%.
- Product height: 3 mm.

### Typical Applications

A range of industrial applications such as for or use on stairs, counter tops, workshop floors and load boxes.

### Material

Rubber

Sizes	Black

3 mm x 2 m x 10 m	RI010005
2 m x per linear metre	RI010005C

## RUBBER CRUMB

Used in a range of industrial application

- Protection layer for constructional and industrial applications, membrane protection.
- This is an elastic pre-manufactured mat made from selected rubber bound with polyurethane
- Strength tested to DIN EN ISO 1798
- Fire tested to DIN EN 13501-1
- Product height: 4 mm.

Sizes	Black
1250 mm x per linear metre	RC010001

### Typical Applications

A range of industrial applications such as for or use on stairs, counter tops, workshop floors and load boxes.

**COBA**

# STANDING UP AGAINST DISCOMFORT

*What are you  
standing on  
at work today?*

LET'S TALK ABOUT THE IMPORTANCE OF STANDING SAFETY

[www.coba.com/za](http://www.coba.com/za)

The COBA logo is displayed in a bold, yellow, sans-serif font. It is positioned on a dark purple rectangular background that is part of a larger graphic element on the left side of the page. The background of the entire page is a photograph of a person's legs in black trousers and black safety boots, standing on a black and yellow diamond-plate rubber mat. In the background, there are cardboard boxes and a metal container, suggesting a warehouse or industrial setting. The lighting is dramatic, with strong shadows.
