

KwikLok Virgin Material Virgin Material Interlocking Floor Tiles

- Easy DIY Installation.
- Manufactured Locally
- Virgin material means no blemishes, leaving you with better esthetics
- Popular low-cost flooring for inside the house or office, playrooms, and garages.
- No adhesive is required (see installation tips).
- Do not expose to direct sunlight or extreme temperatures
- Long life span in outdoor conditions.
- Open holes allow grass to grow through.
- Machine washable at 30°C.
- Product Height: 6 mm.
- Strength designation: 4.6%.
- Our interlocking tile range should only be used on floor applications, if these tiles were to be used on walls or any other application, please consult an adhesive specialist to ensure that the correct adhesive is used for your installation. Always consult your Sales Account Manager to ensure this product can be installed on your specific site for the application you require
- MOQ of the tile: 300
- MOQ of the edging: 2000

*Product should not be installed exposed to direct sunlight or excessive heat/cold from workshop machinery heat, as PVC has a tendency to react, contract, or expand, in such environments. In the case that this cannot be avoided, we recommend the application of glue to the surface however, this may not guarantee that the product will experience some movement. In such events/applications, we will not accept returns on the product.
