

COBA Plastics Group has established, implemented and will maintain this OHS Policy to provide a framework for setting our objectives.

COBA activities will be designed and managed following recognised hierarchies of controls to ensure prevention of injury and ill health. We believe in communicating a positive message regarding all elements of health, safety and general wellbeing through the consultation and participation of our workers.

COBA will strive to build in as many health, safety and environmental factors to our day- to-day business, and at the same time ensure that we comply with all relevant legislative and regulatory requirements.

COBA will provide safe and modern equipment for all work activities and provide relevant training for all of our employees in order that they meet their obligations to work in a safe and structured manner.

Gary Wyatt
Quality Director

Regular routine inspections and audits designed to eliminate hazards and reduce occupational health and safety risks will be carried out to ensure ongoing compliance to the Health and Safety Management Guidelines (HSG65) and ISO 45001.

Jonathan Atkinson
Chief Operating Officer

COBA's processes, equipment and integrated management systems will fall under a framework of review and objectives leading to continuous improvement
